## **\*\*Tornado Safe Room\*\***

The Safe Room will be opened if a Tornado Warning is issued. There are several people in town who have keys to the Safe Room, located on the northeast side of the high school. I want to be sure that everyone knows the conditions for the Safe Room.

1. Entrance will be on the north side through the red doors. Once in, plan to stay in. It can be tempting to watch the weather, but there is potential risk with entering and exiting as people have different levels of comfort with any type of risk.
2. There are drinking fountains and restroom facilities in the safe room.
3. Pets are not allowed in the Safe Room. This was part of the agreement with FEMA when the facility was built.
4. If the sirens sound, patrons will have **10 minutes** to get into the safe room. This is for everyone's safety. Please do not risk others' safety and get there quickly.
5. There is the potential that you will be there for several hours. It may be a good idea to bring a book, deck of cards, or some other form of entertainment, particularly for younger children.
